

ESS Equipment Kenya

Experience The Support

Keeping your Equipment Humming!

ESS Equipment Kenya (ESS) offers world-class equipment and related aftermarket spares to the mining, construction, quarrying, earthmoving and agriculture industries. Backed by entrenched relationships with Original Equipment Manufacturers (OEM's), ESS maintains a high level of service excellence and on-the-ground support.

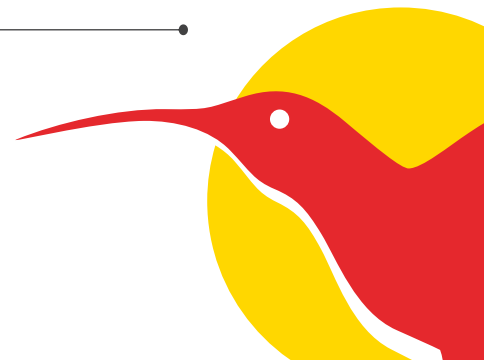

With sales offices and workshops in Nairobi and a very good understanding of the national market needs, ESS offers a wide range of highly available spare parts and skilled maintenance teams to protect customers from the financial implications and risk associated with machine downtime.

ESS, with its technical and financial muscle facilitating investment in staff and infrastructure, is well placed to assist in reducing client operational expenditure, enabling clients to achieve maximum efficiencies and output.

LIEBHERR  **TEREX** | **FINLAY**

MEKA

WEAR PARTS

Liebherr Mining

Recognized for premium manufacturing quality, state-of-the-art technical support and optimized operating costs for construction machinery (bulldozers, excavators, loaders, concrete plants, etc.) Liebherr has established itself globally as a cutting-edge brand and now partners with ESS Equipment Kenya to offer a range most suited to the specific markets needs.

Terex-Finlay

Terex-Finlay have been manufacturing a comprehensive range of tracked mobile crushing, screening and recycling equipment for over 60 years. As global pioneers they offer a comprehensive range of equipment to the quarrying, construction, demolition and recycling industries.

Meka

Meka provides top-of-the-line solutions to the aggregate and concrete production industry thanks to its experienced engineers, high-tech production plants and supreme quality components. Meka brings you a wide range of feeders, crushers, screens and washing systems that can be designed as a complete stationary or mobile solution according to the location, type of rock and individual preferences of the customer, or delivered as single units to replace older models and support or expand existing lines.

Liebherr Mobile Cranes

All-terrain mobile cranes featuring lifting capacity in numerous different sizes for combined road and off-road applications. Ultimate in mobility, can travel up to 80km/hr and are extremely versatile due to compact dimensions.

Costex Tractor Parts

The largest range of new replacement parts for CAT equipment is now available in Kenya through this strategic partnership with this well respected global supplier. These parts are covered by an impressive 1000hr/ 6 month warranty. Quality, delivery time and competitive pricing will convince the most demanding of customers to switch to these lines.

Black Cat Wear Parts & G.E.T

Black Cat Wear Parts produces a complete range of quality wear parts for all OEM brands of earthmoving equipment. Blades and End bits are fabricated using high alloy boron steels and heat treated to exacting specifications to meet the demanding needs of large operations.
